Email: [mhmasum231@gmail.com](mailto:mhmasum231@gmail.com)

Phone: 01761-190107

Address: Banasree, Rampura, Dhaka

## Career Objective

**Junior Full Stack MERN Developer** with hands-on experience in **React, Next.js, TypeScript, Node.js, Express, and MongoDB**, building full-stack web applications with REST APIs, authentication, and responsive user interfaces. Passionate about clean code and continuous learning.

## Experience

### Trainee Software Engineer ( December 2025– Present)

BizReflex (Business Reflection Informatics System)

- Gaining hands-on experience with team-based development and clean coding practices
- Assisting in frontend and backend development of JavaScript-based web applications

## Technical Skills

**Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind CSS

**Backend:** Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

**Tools:** Git, GitHub, Firebase, Postman, VS Code, Vercel, Netlify

## Soft Skills

Communication, Problem-Solving, Time Management, Team Collaboration, Quick Learning, Adaptability

**Projects:** **Digital Life Lessons** is a full-stack MERN web platform for creating, saving, and sharing life lessons and personal growth insights. It features secure authentication, role-based access control, and free vs premium content management with Stripe payment integration. The platform also supports user engagement through interactive and community-driven features.

- User authentication (Email/Password, Google) with JWT-secured APIs
- CRUD operations with public/private visibility and free vs premium access
- Stripe one-time payment for lifetime premium access
- Like, save, comment, report, search, filter, sort, and pagination features
- User and admin dashboards for analytics and content moderation
